

My Top Ten Beverly Cobb

Discipline for Life: Getting it Right with Children, Madelyn Swift. This is the best book that I have ever read about how important discipline is for a child. She gives wonderful examples for teachers and parents. Once we had a strong willed child, I was reading everything that I could get my hands on. I wish that I could get those examples to come up as automatic, maybe I should sleep listening to a tape?!?!

Six Hours One Friday, Max Lucado. What storm is brewing in your life? Max does a splendid job of relating to us as he explains the storm that Jesus went through as he neared death.

Joni, Joni Eareckson Tada. The struggle of a young girl overcoming tremendous odd is the main theme of this book. Joni is such an inspiration to many. This is a wonderful book for any young girl or woman.

Simple Faith, Charles Swindoll. This book is a reminder of the very basics of faith and how to get back to them. I love the poem that he quotes about praying for the hungry instead of feeding them. This had a profound impact on my life!!

Rock-Solid Kids, Larry Fowler. A child's spiritual growth happens at home and church primarily. This is a great book for parents and children's teachers to learn how to work together for the children. Are children as important to us as they were to Jesus?

Normal is Just a Setting on your Dryer, Patsy Clairmont. Hilarious! This book takes the everyday things that women deal with and turns them upside down.

The Calling of Emily Evans, Janette Oke. This is a light read for enjoyment. I love all her books, just a small step from Little House on the Prairie for those who remember them. Her books are wonderful when I just want to relax and be inspired.

The Hiding Place, Corrie Ten Boom. This is a book that I would recommend to everyone. I read it as a young girl, and I have never forgot the faith of Corrie and her sister.

A Case for Faith, Lee Strobel. If you question, "why God?" at any time in your life, this is an awesome book to read. Lee spends time with the experts in their fields to explore some common questions that we as humans struggle with. This book will challenge you to think deeply about what you believe and why!!

Guiding your Child toward God, C. Sybil Waldrop. A very basic book about the simple things you can do to show your child God at each stage of development. This is a wonderful book for parents with young children to begin and read at each age.

Transforming Children into Spiritual Champions, George Barna. This book challenges us to wake up and realize how much children are missing in their spiritual growth. Also, how many children in America are not being exposed to Jesus at all is revealed in this book.
